		Accessory			Steel Mesh		100 mtrs	Rs. 371.70 /m
		Accessory			Aluminium Channel		200 mtrs	Rs. 849.60 /m

Flexible Aluminium Channel

Bendable mounting channel for curved and coved installations — distinct from the rigid straight-channel accessory.

SR	IMAGE	SIZE	TYPE	ROLL LENGTH	SELLING PRICE
35		15mm	Flexible Aluminium Channel	100 mtrs	Rs. 743.40 /m
36		20mm	Flexible Aluminium Channel	100 mtrs	Rs. 849.60 /m

Technical Notes & Ordering Guidance

This range is manufactured from pure silicone that is heat-resistant and UV-resistant, and is sealed to a dust-tight, water-resistant ingress protection rating (IP-67) as standardised across the JS-LL range on jainsonslightsonline.com.

Pricing. All prices in this catalogue are the current customer selling prices shown on jainsonslightsonline.com, inclusive of GST. Profiles and Steel Mesh / Aluminium Channel are priced per metre; Live Cap, End Cap and Back Clip are priced per piece. Prices are correct as of catalogue issue and may change — the product page is always the current price.

Driver and run length. For an even output from end to end, run up to 5 metres from a single 12V driver, or up to 10 metres from a single 24V driver. Feed anything longer from more than one driver.

RGB+WW and RGB+WW Pixel. These need a compatible controller in addition to 24V power — a plain single-colour driver will not operate colour or pixel effects. Exact controller model is not specified by the vendor for this range.

Compatible LED strip. Each empty profile is sized for a specific strip width, stated on its own product page. One model (06x16 Side View) does not currently have a vendor-confirmed strip width — please check with our team before ordering.

This catalogue is for product reference and pricing guidance only. For live pricing, availability and ordering, please visit the individual product pages on jainsonslightsonline.com or contact our team.
